### DETAILED ACTION

1. Claims 1-18 and 21 are pending.
2. Claims 19 and 20 have been canceled.
3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 16, 2007 has been entered.
4. Based upon the Terminal Disclaimer filed January 6, 2007, the rejection of obviousness-type double patenting over claims of U.S. Patent No. 6,706,731 is withdrawn.
5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 1-16 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - A. At claims 1-12, last line, it is suggested that the term "compounds" should be amended to read as --compound--.

Art Unit: 1625

B. Claims 2-16 improperly depend upon claim 1. See the definition of the radical, Y. At claim 1, Y represents heterocyclyl or unsubstituted or substituted cycloalkyl. There is no antecedent basis for aryl. Clarification is appreciated.

C. At claims 13 and 16, it is suggested that the phrase "and salts" should be amended in the alternative --or a salt--.

D. At claim 21, the recitation of the term "such" is improper in U.S. practice.

7. *If Y should represent aryl as defined in the dependent claims, the following rejection is applicable.*

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1, 2, and 18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kowalski (Reference U), of record.

The instantly claimed compound is disclosed. At page 245, see compound

7. The claims are fully met when G is  $-\text{CH}_2$ ; X is NH; n is 1, Y is aryl, and A, B, T, D, and E form a phenyl ring. See the structure below:

10. Claim 17 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zinna N. Davis whose telephone number is 571-272-0682.
